

Slotting Cutter

Cobalt M42

Staggered Tooth - Weldon Shank

- Used for a wide variety of slotting and milling operations in both ferrous and nonferrous materials
- For use on manual and CNC machines
- M42 cobalt for difficult-to-machine materials

Milling Cutters

Cobalt M42

Face and Angle - Weldon Shank - 60° and 90° Angles

- Cuts on face and angle
- Used during angular machining operations on a wide variety of materials
- Available in 60° and 90° included angles
- M42 cobalt for difficult-to-machine materials
