

Keyless Drill Chucks For Portable Drilling Machines

- Ideal for portable electric or battery operated drilling machines
- Does not require a chuck key for tightening or loosening, enabling production increase
- Ergonomic design, using materials which eliminate the possibility of oxidation
- Fits any type of drill, via UNF thread, male and female
- Wide range of accessories

Model	Capacity (mm)	Capacity (Inch)	Mount	Diameter (mm)	Length Closed (mm)	Length Open (mm)	Weight (g)	Code
CPL-10 R-3/8	1-10	1/32-3/8	3/8" x 24 UNF	41	57	65	180	348134
CPL-10 R-1/2	1-10	1/32-3/8	1/2" x 20 UNF	41	57	65	180	348136

Keyless Drill Chucks with Locking Mechanism

Plastic Body and Carbide Jaw Inserts

- With a locking mechanism, no key is required for closing or opening, for hammer drilling and also screwdriver operations
- Carbide jaw inserts (for 13mm capacity) reduce bit slippage and enhance wear resistance
- Ergonomic design, using materials that eliminate the possibility of rust
- With through hole for clockwise and counter-clockwise rotation
- Supplied with screw M5 (R-3/8") or M6 (R-1/2") to fix chuck to drilling machine
- Fits any type of drill (up to 1000W) via UNF thread, male and female
- Wide range of accessories
